## Livestock Show To Be Held At Station April 19th. & 20th.

The South Florida Livestock Show will be held in the recently constructed cattle show ring at the Everglades Experiment Station near Belle Glade on April 19, 20, according to an announcement yesterday by H. L. Speer, assistant county agent, who is spending a great deal of time working up the show.

Cattlemen in the 10 south Florida counties have been invited to participate in the show. Many prizes will be offered, the agent said.

To those who have not seen the recently built show ring there is a surprise in store. It is the very latest type construction and has been built by the state department of agriculture, of which Hon. Nathan Mayo is the head.

Agent Speer said that a great deal of cooperation on the part of farmers and cattlemen in this immediate area will be necessary if the first show is to be made an outstanding success. It is the hope of officials in charge that the show can be made an annual affair, growing with each successive event.

## Homer Clause Hurt In Truck Accident

Homer J. Clause, of Pahokee, sales manager for the Everglades Growers Co-operative, suffered severe scalp and face wounds, broken ribs, considerable loss of blood and shock in a truck accident on Belle Glade Road in front of the Pahokee colored schoolhouse early Wednesday morning during a heavy fog.

At the Everglades Memorial Hospital where he was taken for treatment the attending physician stated that Mr. Clause may also have received internal injuries, the extent of which cannot be determined until a complete series of X-ray pictures are taken.

The accident occurred around 4 a. m. as Mr. Clause was returning home from the EGC packing house at the Pahokee State Farmers' Market which operated all night packing celery. As he rounded the curve approaching the colored schoolhouse in his pick-up truck Mr. Clause failed to see the semi-trailer produce truck, which had broken down at the end of the curve and was parked at the side of the road, and he smashed head-on into the rear end of the trailer.

The driver of the produce truck had set out flares and had a mechanic working on the truck at the time of the accident and is not being held responsible for the crash, according to Patrolman W. A. Humphries, Jr., of the Pahokee Police Department, who investigated. Mr. Clause' pick-up truck was completely wrecked, he said.

## It Is Your Red Cross

For 67 years the American Red Cross has meant sympathy, compassion, and help in time of need to the people of the United States and of the world. During that span of time it has become a vital part of American life—a powerful symbol in this country of man's humanity to man, of his universal compulsion to aid the suffering and the distressed.

The Red Cross is not a thing apart, but an essential section of the fabric of America. It is as truly of and by and for the American people as our government itself.

The board activities of the Red Cross—for disaster victims, on behalf of members of the armed forces and veterans, with the hospitalized—in teaching safety and health to hundreds of thousands of people—and through the Junior Red Cross—are dependant upon the volunteer efforts of the millions of men, women, and children who make up its membership.

Its ability to help, instantly and effectively, the family across the street, or across the nation, or across the sea, is founded in the broad network of Red Cross chapters which reaches into every community in the United States. And it exists only to serve, to do what you would do if you were on the scene.

In truth, the American Red Cross is your agent for the complicated task of meeting human need wherever it exists in this modern world. That is a heavy responsibility. Each individual American must bear his share of it.

## Governor Is Against General Sales Tax

"I am against a general sales tax. I shall do everything possible to persuade the Legislature not to pass a sales tax. Should this unfair and unjust tax be vetoed by the Legislature, I shall veto it, and then do my utmost to sustain the veto."

"The people of Florida already are paying a tremendous sum of money in special sales tax. Special sales taxes, sometimes called consumption taxes, account for 32.9 per cent of all the taxes collected by the State of Florida. These special taxes, plus the taxes on motor vehicle operators, add up to 74.4 per cent of all state revenues. Thus it can be seen that the overwhelming weight of the tax load in Florida is carried by low income citizens."

"The rulers of Florida for the past 25 years have contrived to pile most of the tax load on people least able to pay taxes, and have erected a wall of exemption around the wealthy. This violates the soundest and fairest principle of taxation, that taxes should be levied according to ability to pay."

"I would remind those who are trying to whip up support for a general sales tax that of the 27 states having such a tax, 20 also have an income tax. And even more ominous for those who are agitating for a general sales tax, is the fact that 15 states have income taxes but no general sales tax. In those states having both taxes, the income tax was usually the first to be imposed."

"A word to the wise should be sufficient. And the sales taxers again are reminded that, with a veto assured, it will take a two-thirds vote to enact a general sales tax."

## CHURCH OF CHRIST, SCIENTIST

"SUBSTANCE" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday March 13.

The Golden Text is: "Now faith is the substance of things hoped for, the evidence of things not seen" (Hebrews 11:1).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Charge them that are rich in this world, that they be not high-minded, nor trust in uncertain riches, but in the living God, who giveth us richly all things to enjoy; That they do good, that they be rich in good works" (I Timothy 6:17-18 to 2nd).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Christianity causes men to turn naturally from matter to Spirit, as the flower turns from darkness to light. Man then appropriates those things which 'eye hath not seen, nor ear heard.' Paul and John had a clear apprehension that, as mortal man achieves no worldly honors except by sacrifice, so he must gain heavenly riches by forsaking all worldliness" (458:32-7 next page).

## STUDY NEW DEPOT

MIAMI—A public hearing on the so-called "Gardner Plan" for relocating the Florida East Coast Railway station on N. E. 62nd street, near Second Avenue, was held on Monday night by the city planning board. Several organizations filed notices of protest.

The N. E. 62nd Street site is the third location proposed for a station to replace the present wooden structure at midtown Flagler Street, along N. W. First Avenue. The first was at 14th Street near N. Miami Avenue.

A second at N. E. 20th Street, near Miami Avenue, had the approval of the trustees of the FEC and was approved by the Greater Miami Traffic Association after a lengthy city-financed study. It was held up by the City Commission, however, in the face of neighborhood objections.

## SOONER or LATER - MR. JAYWALKER GETS A RIDE!

You have heard of him before, read about him in the obituaries and cursed him when driving. Mr. Jaywalker is the habitually irresponsible pedestrian who accounted for 34% of Florida's traffic fatalities in one year and 195 of his kind were given a ride to the morgue. Throughout the nation 11,200 pedestrians lost their lives last year. Are you startled?

If you have any jaywalking tendencies in your make up eliminate them before they eliminate you. Danger to life and limb is ever present when you venture into traffic. Yet it requires only the simplest application of a little common sense and patience to quit being a jaywalker. Walk and cross streets and highways where you should — when you should. Don't pit your body against speeding metal; it won't win.

Living is a great adventure. Why cut it short before your time? Walk safely and live longer.

## Tax Commission Is Suggested By Governor Warren

"I am giving serious thought to asking the Legislature to submit to the people a proposed amendment to the Constitution creating a State Tax Commission. This Commission would have broad powers to equalize real property assessments in the 67 counties."

"It is a notorious and almost scandalous fact that many counties assess real property so low that a mere trickle of revenue is produced, while other counties assess real property at or near its fair and reasonable value, thereby producing the quantity of revenue intended and required by the 100 per cent valuation law. Because of this, a citizen of Florida living in one county pays comparatively high taxes on real property, while a citizen living in another county pays low taxes on property of the same actual value—the wide difference being caused by equitable assessments in the first county and unfairly low assessments in the second."

"This not only discriminates against citizens living in counties where real property is assessed according to the 100 per cent valuation law, but it robs the counties where assessments deliberately have been fixed low of millions of dollars of badly needed and legally due revenue. After thus cheating themselves of revenue, these

counties then call upon the State government to provide them with money they could and should obtain by honest and fair assessments."

"The State, in turn, must impose taxes upon the people of all the counties, including those counties which pay their fair share of real property taxes, to get the money to help the counties which have cheated by assessing real property far below its actual value. This violates every principle of fair dealing. It must be stopped. Tax slackers must be eliminated."

"It seems to me the Legislature should submit to the people a proposed amendment to the Constitution providing for a State Tax Commission to be composed of one member from each Congressional district and one from the State at large. All members would be appointed by the Governor and confirmed by the Senate."

"Since it is essential that members of such a Commission have knowledge of and experience in assessing taxes, I think perhaps its members should be selected from among the 67 county tax assessors of the state. To hold the administrative costs of such a Commission to a minimum, it occurs to me that the county tax assessors selected to serve on the State Tax Commission should continue to receive their salaries as tax assessors and serve as ex-officio members of the Tax Commission. They would be paid only a reasonable per diem and expenses for the days they actually work as State tax commissioners. I believe it would require only a small portion of their time to discharge fully and properly their duties as members of a State Tax Commission."

"By 'drafting' county tax assessors, not only would the State obtain men experienced in tax assessing and hold expenses to a minimum, but it would remove the danger of having a State Tax Commission filled with incompetent, political henchmen."

"This question so deeply affects all the people of the State that I have felt I should present this proposal to them in advance of the convening of the Legislature, so that there may be full and free public discussion before the Legislature is asked to submit it to the people for their decision."

"I am not wedded to this particular plan. I would favor any fair plan which would correct the abuses of the 100 per cent property valuation law now existing in many counties."

## Donna Gail Jensen Talks On Girl Scouting

Girl Scouts were guests of the Pahokee Lions Club at the annual fathers and daughters luncheon held Tuesday in the Woman's Club building.

Donna Gail Jensen gave an excellent talk on girl scouting in which she briefly outlined the history of scouting, pointed out the need of a girl scout hut for this area and thanked leaders and parents for their work and cooperation in making local girl scouting an outstanding success.

One hundred twenty-three local girls have joined the Girl Scouts and these have 21 leaders. The 49 scouts present at the luncheon joined in the group singing of scout songs. Members of Troop Three presented a gypsy dance taught them by Miss Jeanne Gough. Mrs. Parnell Enecks, leader of Troop Two, introduced the numbers on the program. Other leaders present were Mrs. O. R. Bleech, Mrs. M. I. Keen and Mrs. Lewis Friend.

Bill Justice was received as a new member of the Club. Lions District Deputy Governor Emmett Roberts of Belle Glade announced the Belle Glade club is sponsoring a three-ring circus at Belle Glade on Mar. 19 and asked for the cooperation of the Pahokee club. The Pahokee Lions will assist in this project by selling tickets.

Mr. and Mrs. Inman W. Weeks were visitors at Nocatee on Wednesday.

## 86 Are Unemployed In Canal Point Area

"Only qualified workers are referred to an employer by the Florida State Employment Service for interview and selection, thus saving the employer both time and money," reports A. M. Larrimore, manager of the Belle Glade office.

The placement process of the Employment Service, which matches an applicant's qualifications with job characteristics, eliminates employers interviewing a great number of workers not qualified for the job opening.

At the end of February, 86 applicants are listed in the Pahokee-Canal Point area, and only a few job openings were available. While the largest number of applicants were farm workers who have since found employment, there are also considerable number of carpenters, truck drivers, and miscellaneous types of workers.

"The Employment Service office is carrying on an intensive effort to find more jobs for the county's unemployed," Larrimore said. We hope to list every job opportunity in the area so that unemployed workers may be promptly referred to a job."

During February, 96 job applicants registered with the Employment Office while only 25 job openings. A representative is in the City Hall on alternate Tuesdays from 9:30 a. m. till 12:00 noon. A telephone call is sufficient and the telephone number is Belle Glade 2931.

"Because of the contact with state and national offices, we may be able to fill your difficult job openings for which there is no qualified worker in this city or county," Larrimore remarked.

## Teachers Seeking Pay Increases

An overall blanket salary increase of \$500 for teachers, effective for the school year 1949-50 was asked of the County School Board at a meeting Thursday afternoon.

The request came from the Palm Beach County Classroom Teachers' Association and stated at the outset that "this raise is to come from local sources and is to be entirely separate from any revenue that may accrue in the event of Federal aid to education."

The board took the request under advisement, acting chairman Carmen Salvatore explaining that no action could be taken until the end of the school year and until any results of acts by the State Legislature concerning school funds would be known.

Contract for a new negro elementary school at Belle Glade was awarded to the Florida Remodeling and Construction Co. for a total bid of \$155,342.07.

Work is scheduled to start immediately upon signing of the contract, Supt. Howell L. Watkins said.

Final deed for the chapel at the Morrison Field campus of the Junior College was received from the War Assets Administration. This completes the transfer of all the former government-owned buildings at the field, Supt. Watkins explained.

The salary increase petition was presented by Mrs. James Mason, Palmetto School. It pointed out that whereas industrial wages have risen while length of work time has been shortened, extra service has been required by teachers in return for increased pay.

Mrs. F. C. McKenzie, who identified herself as a former Palm Beach High School teacher on leave, supported the petition from the floor. She cited the increased cost of living, making particular reference to the announced increase in bus fares—Palm Beach Post.

Mr. and Mrs. G. B. Ramey and children were overnight guests of his cousin, Mr. and Mrs. Armour Ramey, at Cleveland, Fla., Saturday and visited the winter quarters of the Ringling Bros. Circus at Sarasota on Sunday.

## May you never be roasted like this!

"NEFF? SURE I REMEMBER HIM. Class of '19, wasn't he?"

"That's right. You knew he had to give up his job, Doctor's orders."

"Tough break. Hope he had some money saved up."

"Not Neff. Not a penny. You know how he always was—easy come, easy go. Had to sell his house to get out of debt."

"Rough on that sweet little wife of his. Now that I think of it, she kept trying to talk him out of his free-spending ways. Guess she never could."

"He'd never listen. And now those two

boys of theirs are of college age."

"Guess now they'll have to go to work, supporting him. Why do people get themselves in a spot like that? Anybody with the common sense of a jack-rabbit knows that the only way to protect their families and themselves is with a systematic plan of saving."

• • •

We don't know Neff. We merely overheard two fellows talking at lunch the other day. Actually we feel sorry for him—for anyone who doesn't know the importance of saving.

Fortunately, for every Neff there are thousands of others who do have a plan for the

future. These are the men who invest a part of their earnings each month in U.S. Savings Bonds.

They can see the wisdom in the Payroll Savings Plan—a painless, automatic plan that pays back \$4 for every \$3 put in, after ten years.

They know that U.S. Savings Bonds are guaranteed by the Government—the safest, surest investment a family man can make today!

If you're not on a payroll, ask at your bank about the equally convenient Bond-A-Month Plan. Remember—you owe it to your own future and to the security of your family!

## Cattle Judging Is New Event For Glades FFA Group

Members of FFA and 4-H Clubs in the Lake Okechobee Region attended the annual fat cattle show in Ocala last week with Assistant County Agent H. L. Speer. A cattle judging team made up of Charles McCurdy of Pahokee and Roland Whitlock and Howard Hill of Belle Glade participated in the judging events.

There were 28 judging teams in the competition and the Glades boys in their first judging efforts were up against "some experts." However, with no previous experience the local boys placed 15th, which was pretty good. They won a ribbon and cash prize for their efforts.

The champion in the fat cattle show was a black Angus raised near Lutz, Fla., and was sold to Margaret Ann Grocery chain for \$2.66 per pound. The second winner was a Hereford from Alachua county and the third prize winner was a shorthorn from Chipley.

Boys in the Glades interested in the cattle business have shown a great deal of interest through the Future Farmers organization and the 4-H Clubs, according to Agent Speer. The boys have done some outstanding work and their instructor is quite proud of their accomplishments.

## Urges Passage Of Water Control Plan

WASHINGTON — An appropriation of \$16,300,000 to start the first phase of a comprehensive Florida water control program was urged Tuesday by Florida members of Congress.

Aided by State Rep. Grant Stockdale, of Miami, they argued their case before a House Appropriations subcommittee.

Congress last year authorized the first phase of the program designed to protect the East Coast urban and agricultural areas in Dade, Broward and Palm Beach counties, and the developed areas south and east of Lake Okechobee.

The budget recommended, \$1,000,000 to start the program. The Floridians want this amount increased—to \$16,400,000 if possible.

Rep. Smathers (D-Fla) told the committee in a statement that the Florida Legislature will meet in April and consider a \$3,000,000 appropriation as the State's share in the cost the next two years.

"I believe, however," he said, "that we should offer affirmative evidence that the Federal government intends to appropriate its share of the expenses before the Legislature convenes in April."

Smathers said the area to be protected includes some of Florida's richest farm area and suffered heavily in Southern Florida's 1947 flood.

"In terms of human life and property loss, the necessity for the immediate construction and operation of this control project cannot be questioned," he told the committee.

## Swimming Pool To Open On May 21st.

The Pahokee swimming pool is scheduled for opening on Saturday, May 21, according to official word from the Pahokee Lions club, sponsors of the pool.

About \$2,000 is needed to put on the finishing touches to the pool and an automobile will be given away the day the pool opens in order to raise the necessary cash, it was said.

Frank Shaughnessy of the Glades Equipment has made a handsome donation from his International Harvester stock to lend impetus to the fund raising campaign.

Dr. and Mrs. R. R. Long had as guests over the weekend Mr. and Mrs. Walter Ramsey and Mr. and Mrs. Erwin Young of Danville, Ind.

## Red Cross Drive Is Slow In County

Jupiter, Palm Beach and Lake Worth lead other Palm Beach County communities in the first week's total toward the \$88,700 county quota, according to reports from 11 communities last Saturday.

E. E. Bartlett, Jr., chairman of the Palm Beach County fund campaign reported \$32,692.61 had been turned in up to March 4. Palm Beach came up with \$26,047 of its \$47,767 quota under the direction of Russell P. Kelly. Lake Worth garnered \$2,535 of its \$5,115 goal in the first week as reported by Mrs. Marjorie Collins, campaign chairman for her community.

Jupiter was leading the entire county on a percentage basis with \$246 subscribed out of \$333 needed. This represents about three fourths of the Jupiter quota.

West Palm Beach reported \$3,464 of its \$23,479 quota collected during the first week, according to Percy I. Hopkins, Jr., campaign chairman. The Special Gifts division under R. R. Richardson turned in \$2,355 of the West Palm Beach total.

In the Glades Section Pahokee reported \$275 and the other communities are beginning their active campaign this week. The Pahokee, area comprising Canal Point, Port Mayaca and Bryant is under the chairmanship of B. Elliott. Mrs. Benjamin E. Weeks heads the fund drive in Belle Glade, Bean City, Chosen, Lake Harbor and South Bay.

Nearly half of the individual communities, through their chairmen reported they were starting active work on Monday of this week. Among these were Mrs. Weeks, Belle Glade; J. C. Mitchell of Boca Raton; Dr. and Mrs. F. L. Purinton, Boynton Beach; Charles Senior of Delray Beach and Peaselee Streets of Lake Park.

At the week end meeting of the Palm Beach County Advisory Board, Mr. Bartlett expressed his appreciation and thanks to the community chairman and volunteers for the great number of volunteer solicitors. He said that in all communities there was better organization, more workers, and a better start than in any year since the war years, and stated that he hoped all communities would reach or exceed their quota before the end of March, the month of the Red Cross fund campaign.
